This is Timo

Timo's dream
is to have a
blog.

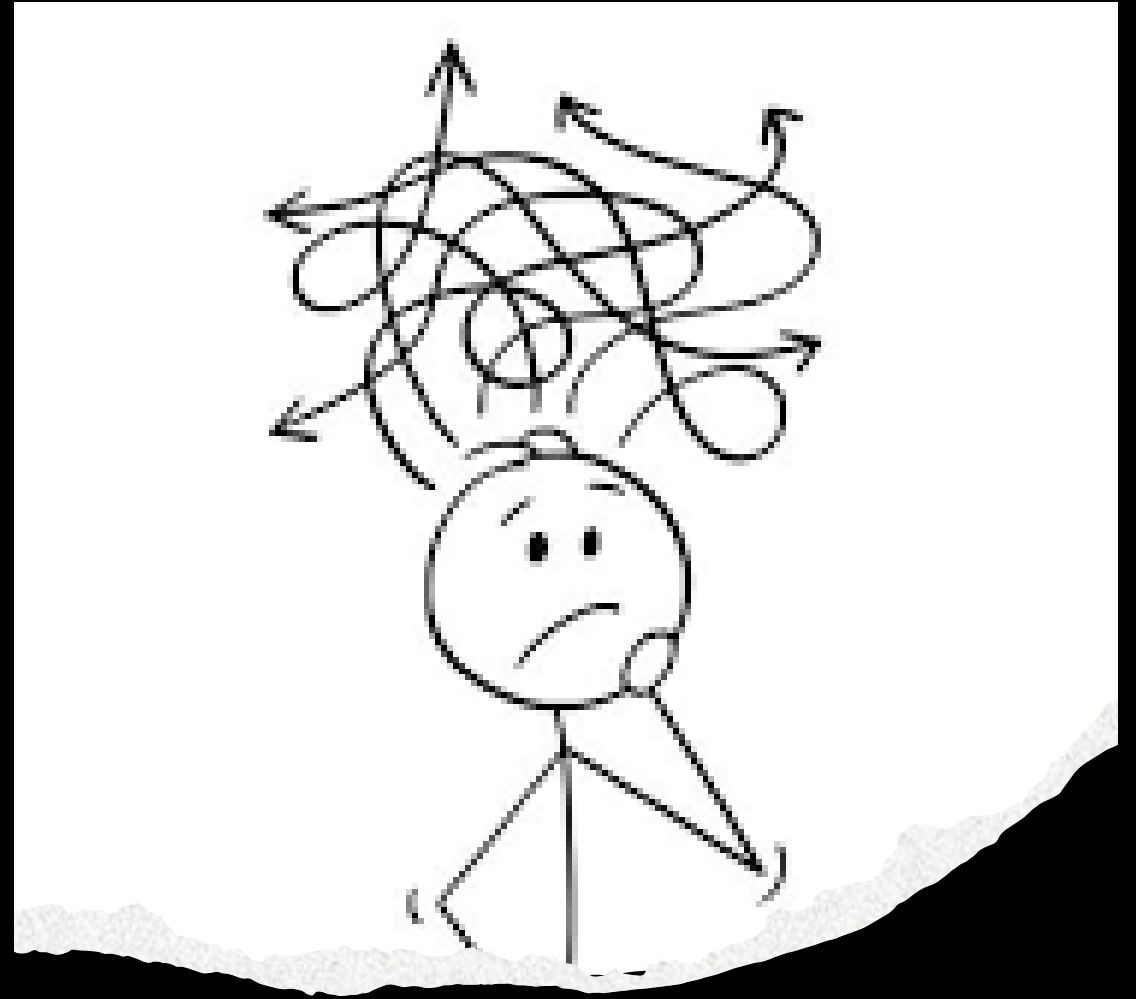

He wants his
blog to be
really
successful.

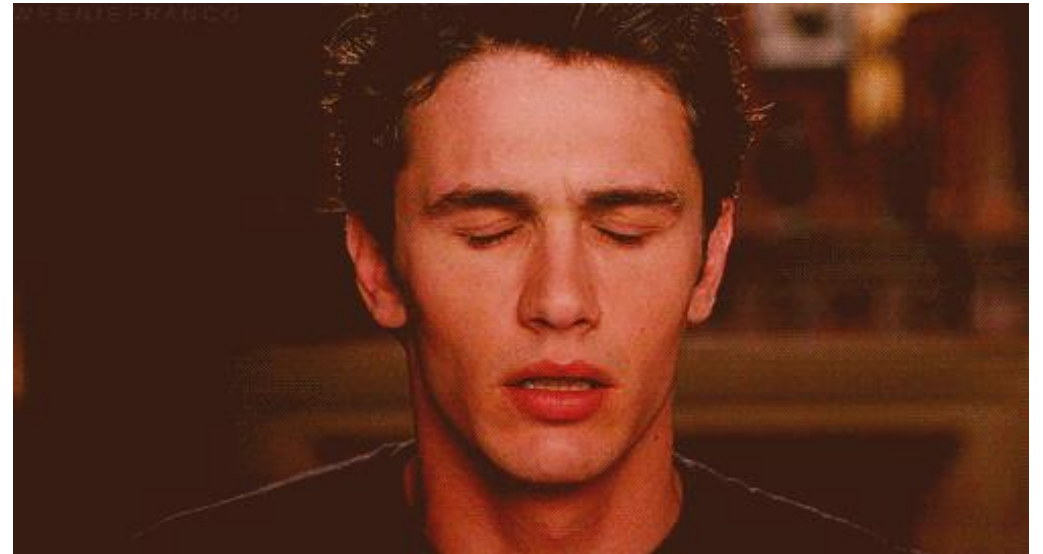

He loves to write. It is his favourite activity in the world. He could do it all the time.

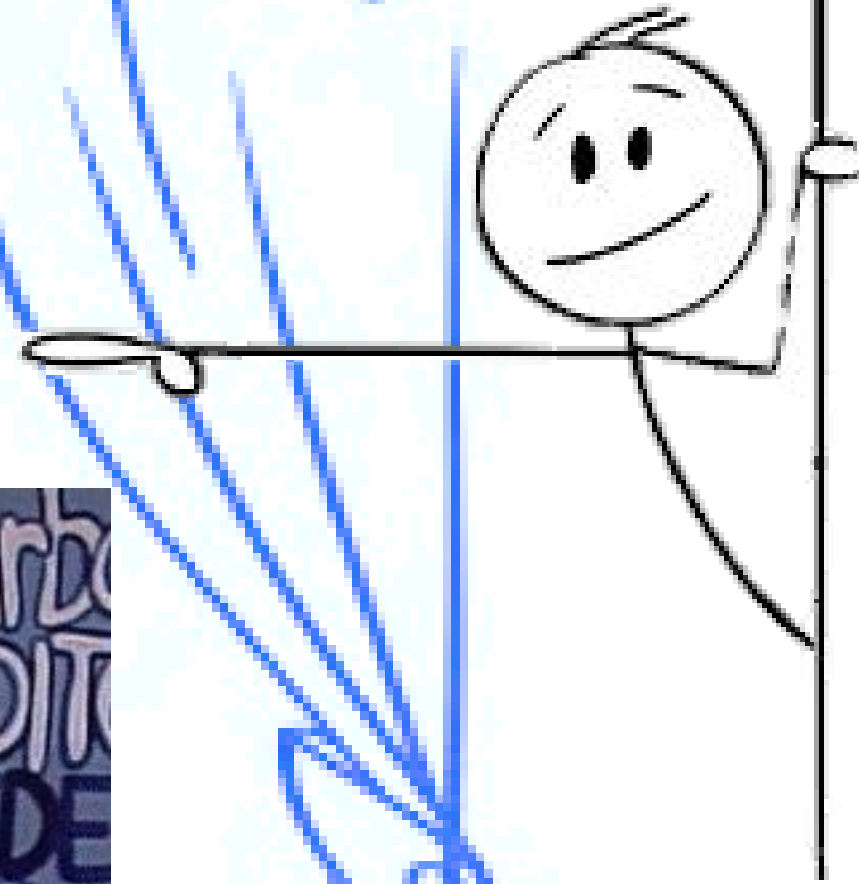

What he does
not like is
everything
else that
comes with
having a
successful
blog.

-
- He has to worry about SEO?
 - Ads?
 - Best Layout?
 - Accessibility?
 - That's not what he had in mind when he thought of having a blog.

**That's why we
created:
WebBoost**

Live Demo:

<https://web-boost.vercel.app>

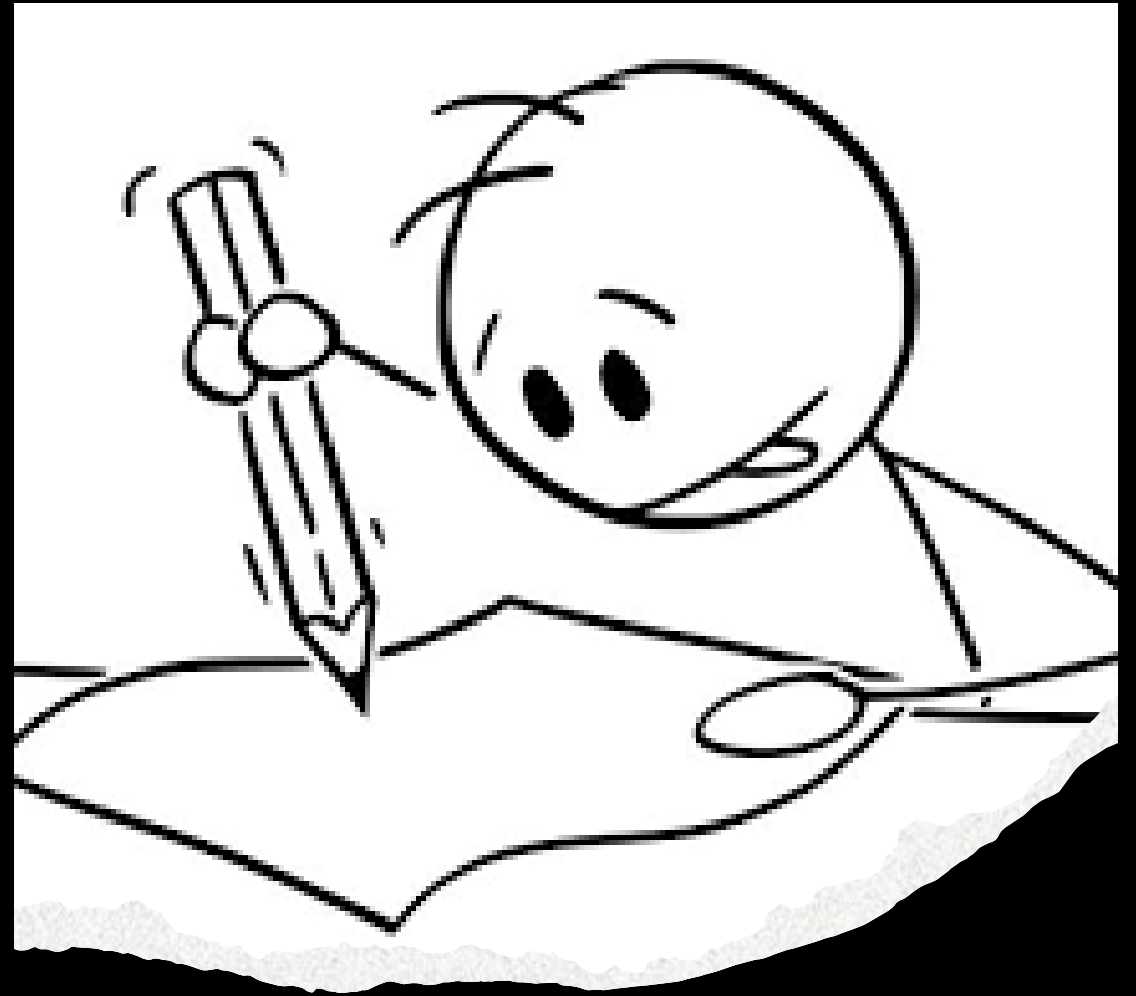

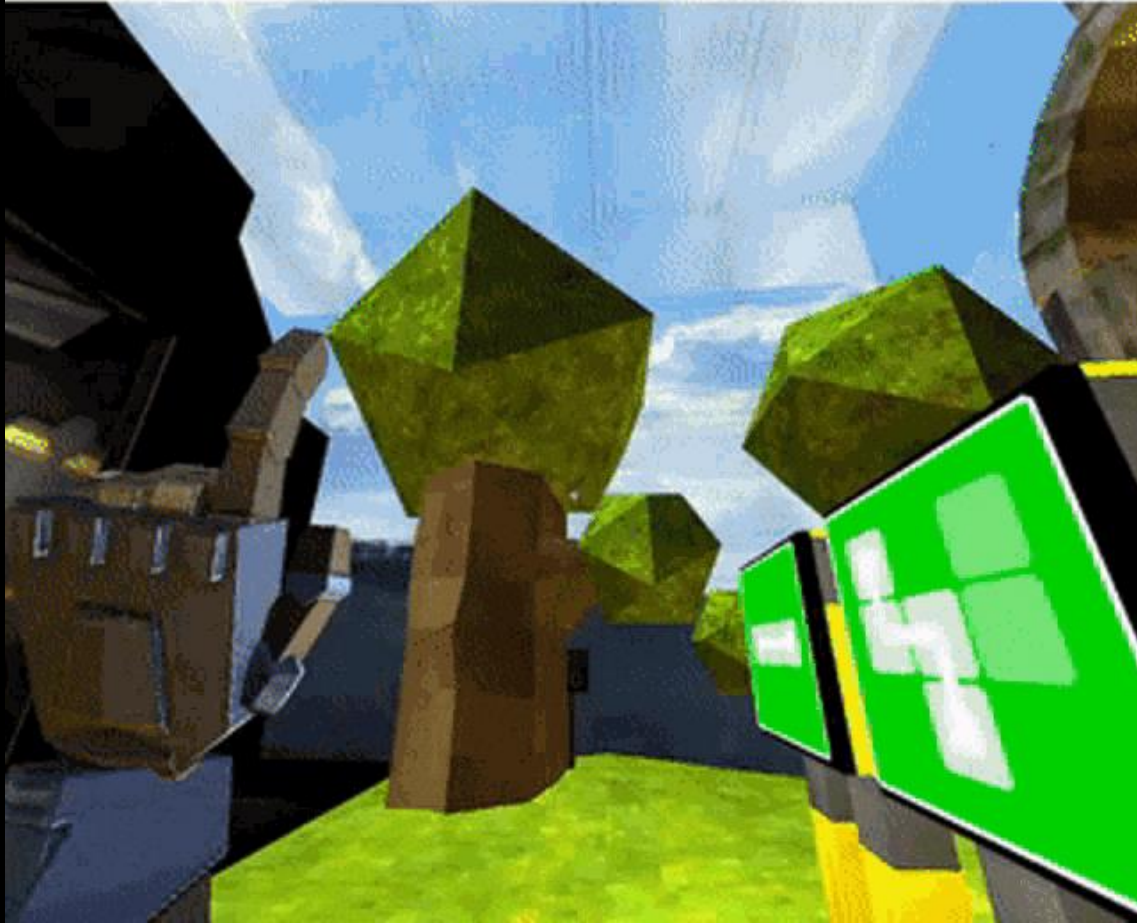

<p>Free : Just Blogging for Fun</p> <p>Free(€0/ month)</p> <ul style="list-style-type: none"> • 1 website • Analyse up to 5 posts per month • Overall quality score (0–100) • Top 3 fixes for each post 	<p>Creator : For Serious Solo Bloggers</p> <p>≈ €5.99 / month (yearly)</p> <ul style="list-style-type: none"> • Up to 2 websites • Unlimited posts per month • Full breakdown: readability, informativeness, engagement, originality, design & SEO • Ranked “fix first” list for every post • Progress over time (see how your score improves) 	<p>Studio : For Freelancers & Small Agencies</p> <p>≈ €19.99 / month</p> <ul style="list-style-type: none"> • Up to 10 websites • Client-ready PDF reports with your logo • Before/after comparison for each optimisation round • Simple site overview to see which client needs attention next
---	---	---

Will Timo pay for this?

If one improved post brings a sponsor, client, or extra sales, that month of WebBoost has already paid for itself....

press enter

Our Analysis includes:

Action Plan/ Recommendations

Receive clear actionable suggestions instead of vague advice.

Detailed Breakdown

See performance across content, design, SEO and engagement metrics.

Quality Score

Get a clear 0-100 rating that summarizes your blogs overall health

How WebBoost Evaluates your Blog?

Readability

Analyzes if content is easy to read versus heavy and complex

Informativeness

Evaluates content depth, helpfulness, and uniqueness

Engagement

Checks interaction elements, CTAs, comments, and structure

Originality

Verifies content uniqueness and authenticity

Design & SEO

Assesses layout, mobile view, speed, tags, and keywords

Each component receives its own score, then combines into one comprehensive quality grade that shows exactly where you excel and where to improve.
